

Control your home with

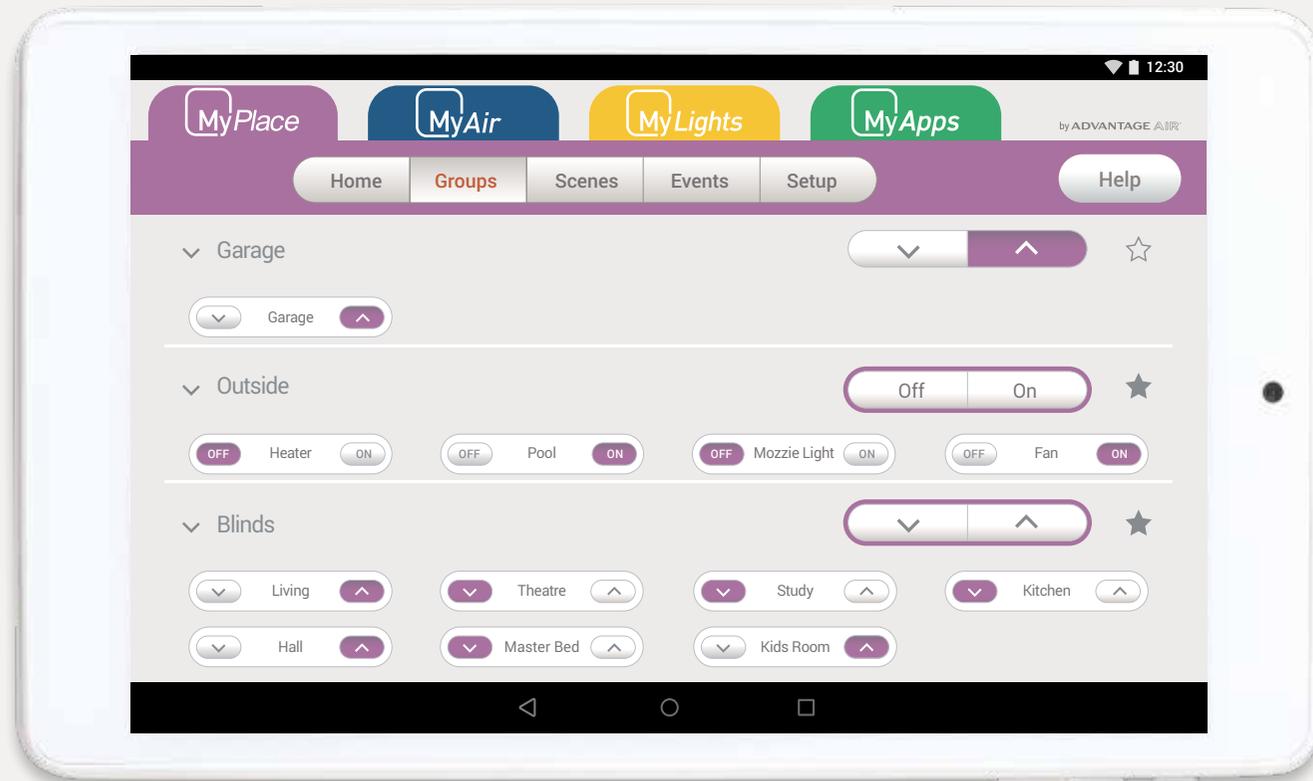

Australian Smarts

ADVANTAGE AIR®

MyPlace. You can't beat Australian smarts.

CONTROL YOUR PLACE WITH MYPLACE

MyPlace makes smart home technology simple. A reliable, easy-to-use integrated system which gives you peace of mind when you're away from home and comfort while you're at home.

WORKS WITH EXISTING PRODUCTS

MyPlace makes smart technology affordable by working with existing items in your home, such as lights, garage doors, fans and some motorised blinds. It comes in modular form, allowing you to add more now or later.

MYPLACE IS YOUR HOME HUB

Your MyPlace Android touchscreen allows you to control your home through one simple integrated system, and day-to-day family life through one dedicated tablet. Being hardwired to the wall, it never needs recharging and never goes missing.

MYPLACE APP FOR ADDITIONAL CONTROL

With the MyPlace app, you can control your products from the couch, from work or wherever you are. It works with most smartphones and tablets and turns them into additional remote controls.

EASY TO INSTALL AND OPERATE

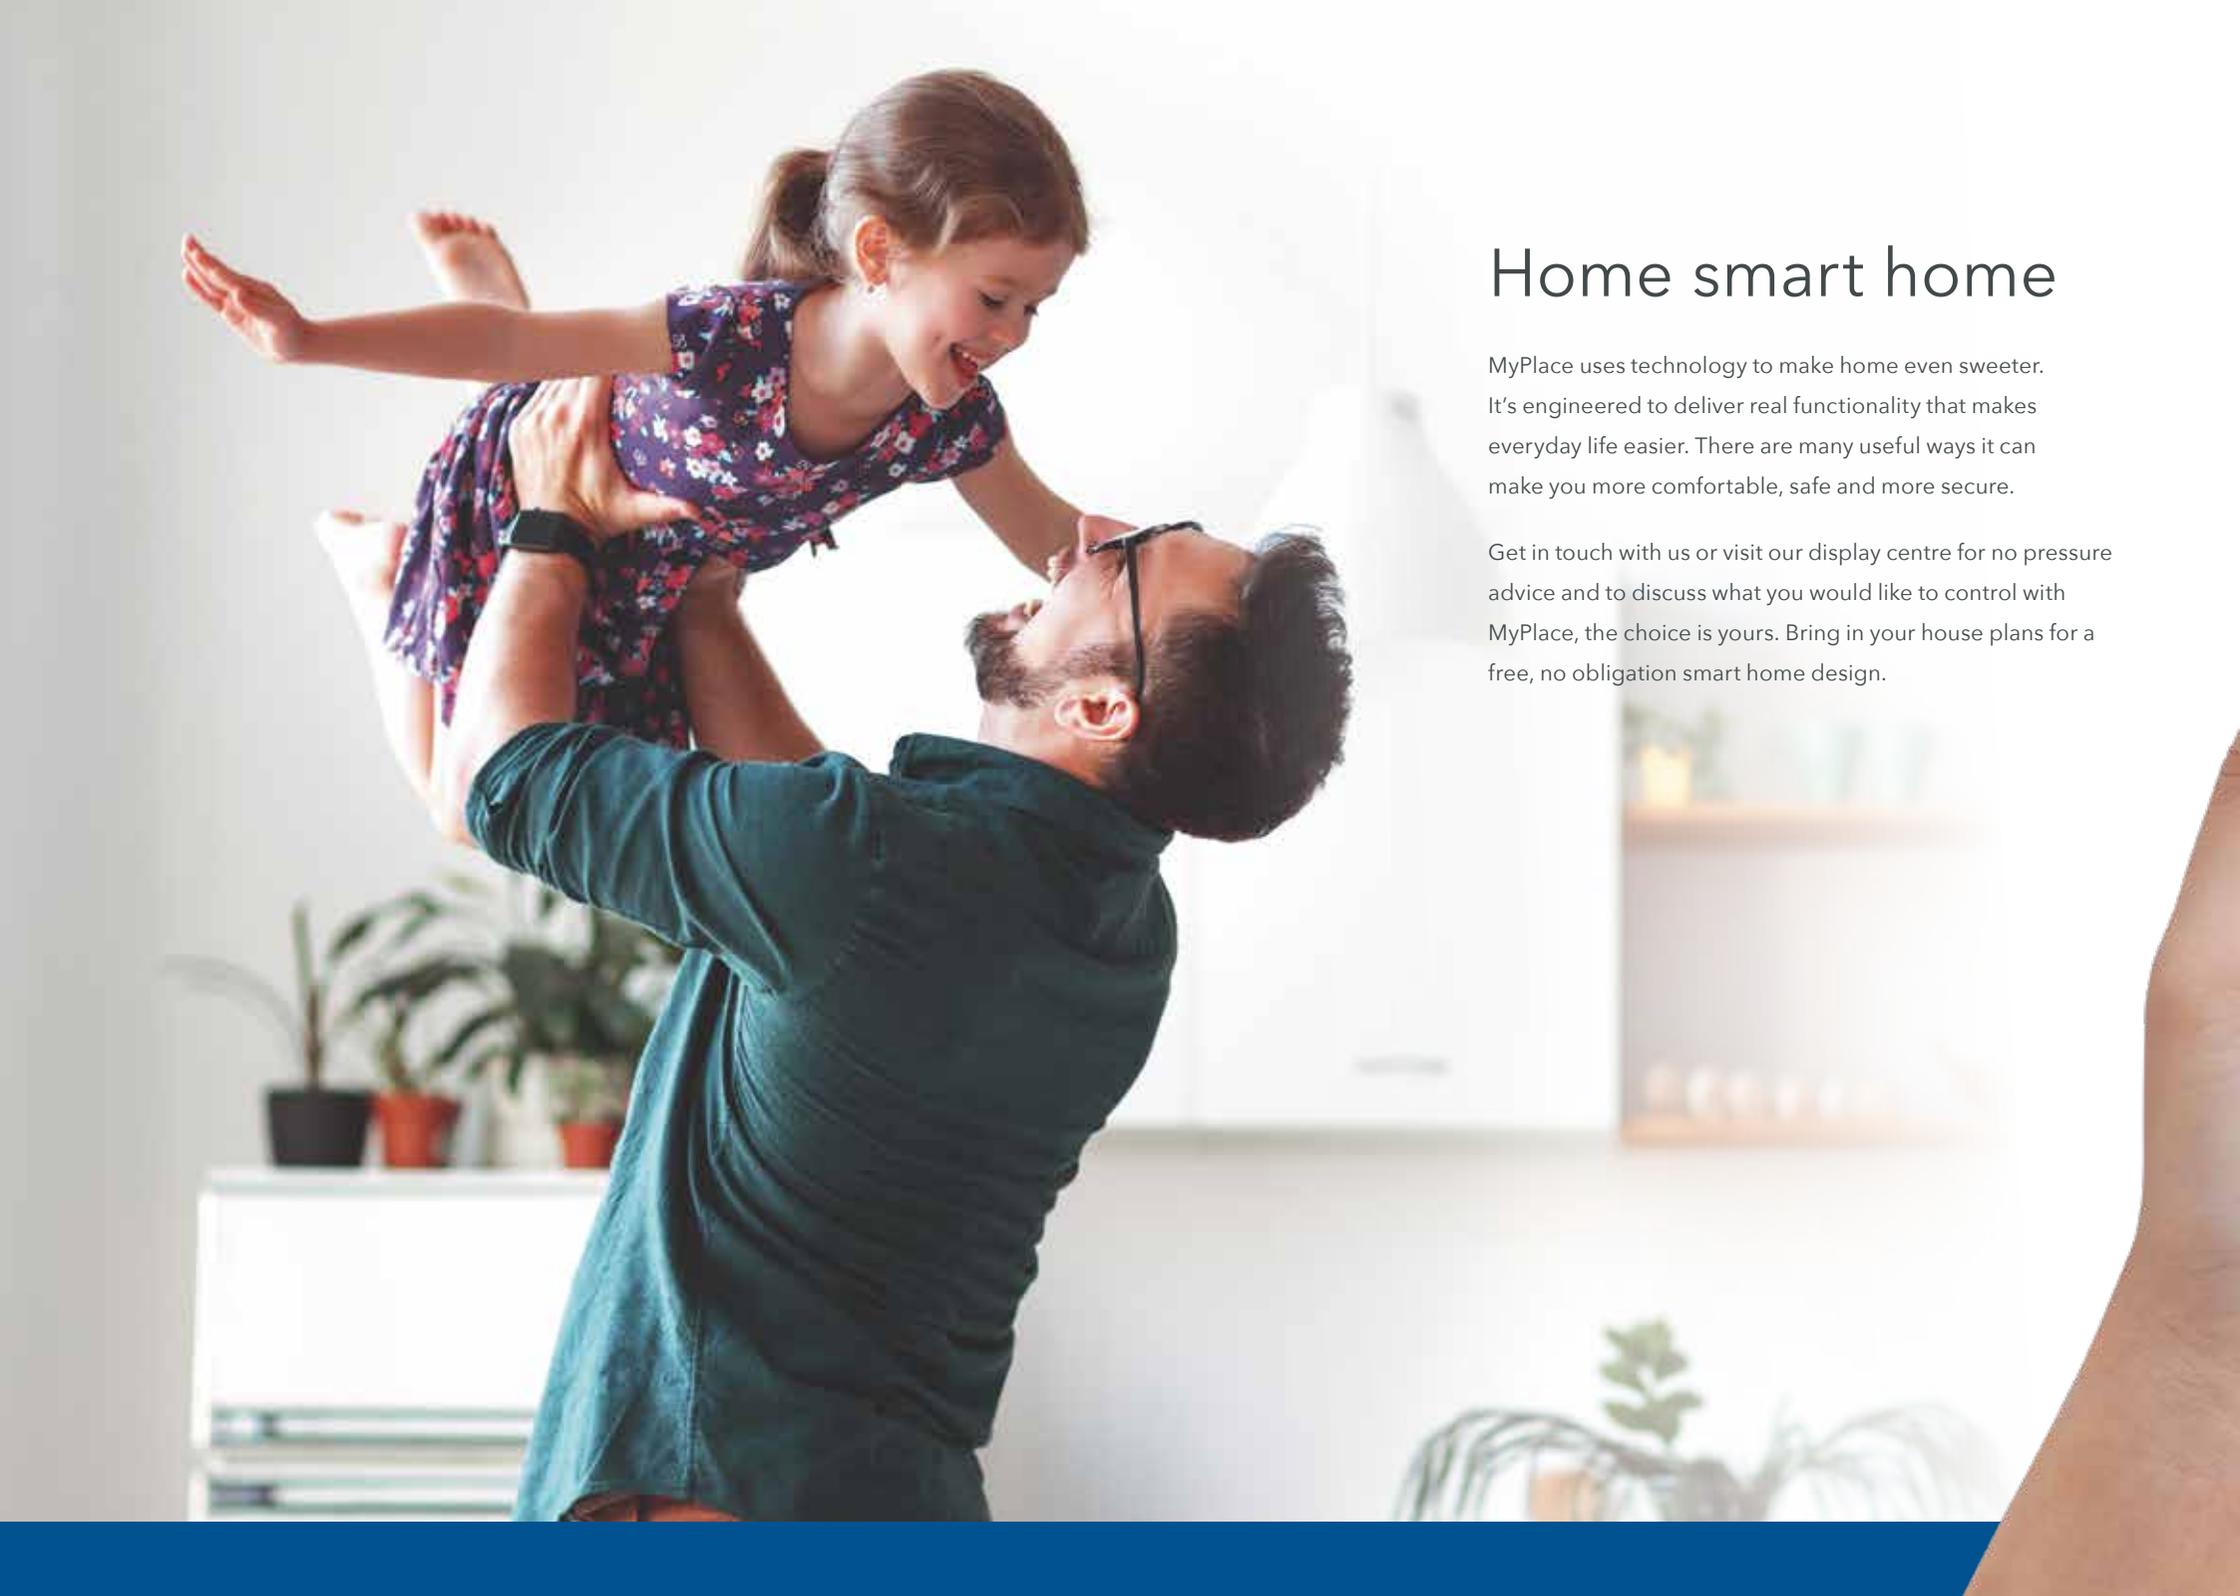

There's no need for expensive specialist cabling. MyPlace connects to your existing wiring, making it straightforward for your electrician to install in new or existing homes. Be surprised by how easy it is to make your home smart.

AUSTRALIAN OWNED AND MADE

MyPlace is made by Advantage Air - an Australian-owned company committed to designing and manufacturing in Australia, where possible. From R&D to after sales support, we're here to ensure you get the most out of your smart home system.

A man with a beard and glasses, wearing a dark green long-sleeved shirt, is lifting a young girl in a purple floral dress into the air. They are both smiling and looking at each other. The background is a bright, modern living room with white walls, a white cabinet, and several potted plants. The lighting is soft and natural, creating a warm and happy atmosphere.

Home smart home

MyPlace uses technology to make home even sweeter. It's engineered to deliver real functionality that makes everyday life easier. There are many useful ways it can make you more comfortable, safe and more secure.

Get in touch with us or visit our display centre for no pressure advice and to discuss what you would like to control with MyPlace, the choice is yours. Bring in your house plans for a free, no obligation smart home design.

ADD MYGARAGE AND ALWAYS LOCK UP

When you're in a rush, it's easy to forget to close the garage door. If it's been left open, MyPlace sends a notification to your smart device. You can then use the MyPlace app to close it with one simple tap.

FEEL SECURE

Tap MyWelcome on the MyPlace app to turn on your lights before you get home.

COME HOME TO COMFORT

It takes time for air-conditioning to effectively cool or warm a home. By using MyPlace to turn it on before you get home, you always arrive home to your preferred temperature.

MAKE THE OUTDOORS EVEN GREATER

Entertaining alfresco? MyPlace helps you show off your place to its best. With the MyPlace app, you can use your phone to turn on the mozzie light, ceiling fan or outdoor lighting.

HOLIDAY INSURANCE

With MyPlace, your home always looks occupied. By controlling the lights and blinds, you can make it look like you're home, even when you're somewhere else.

MyMonitor

MyMonitor Control Module can sense changes in motion, temperature and light, giving you more control than ever over your home.

MyMonitor enhances your existing **MyAir** or **MyPlace** "Scenes" and "Events" features by adding new conditions, these are easily setup through the apps, with no special home automation programming needed.

MyMonitor will let you know what the kids are up to and when they arrive home; so if you're running a little bit behind time you don't need to worry.

Or imagine your home giving you a warm welcome after work, with lights coming on, air-conditioning at the perfect temperature and your favourite music playing.

With the ability to set up to 20 "Events" the uses are limited only by your imagination.

Why MyPlace is smart thinking

USEFUL

MyPlace is simple to use. It makes life more comfortable by giving you smart control over the things you use every day.

AFFORDABLE

We designed MyPlace to be compatible with your existing products; lights, garage doors and more. No specialist wiring is required making MyPlace an affordable smart home system.

ADDITIONAL CONTROL

With the MyPlace app you can control your smart home system from wherever you are, using your smart phone or tablet. MyPlace also seamlessly integrates with smart home devices such as Google Home, Amazon Alexa and Siri, so you can use voice command too.

Option to add MyAir

MYAIR

Our premium smart air-conditioning management system has 10 zones and the power to adjust the airflow to every room, so you decide how much air goes where. MyAir is the only Advantage Air control system that will integrate with MyPlace to further enhance your smart home control.

INDIVIDUAL TEMPERATURE CONTROL (ITC):

Option for ITC, where each room can have its own temperature sensor which will instruct the system to continually adjust the airflow to maintain the selected temperature.

MAXIMUM COMFORT:

Add MyAir air conditioning to your MyPlace system for even more control of your home's climate and comfort.

Real people, real customisation.

COMPLIMENTARY WHITE GLOVE SERVICE

We get that adapting to new tech takes time. It's easy to forget everything the installer showed you. That's why we include a Home Check-Up once you are settled in, as part of our White Glove Service. A MyTeam member will visit your place to understand how your smart home system is working for you and customise it to suit your lifestyle. What makes life easier than Artificial Intelligence? Real intelligence, in your home, when you need it.

THE MYTEAM MEMBER CAN:

- Re-walk you through the system
- Demonstrate advanced functions
- Customise settings and scenes to suit your lifestyle
- Integrate the system with your Google Home or Alexa
- Install other apps on the tablet
- Install and set up the app on your mobile devices
- Show you features you may not have come across yet
- Answer any questions you may have

Our people make MyPlace the smartest home system

MyPlace comes with a very helpful feature - MyTeam. When you purchase one of our systems, you join our family and we're here for you for the long haul.

BEFORE YOU BUY

Our no-pressure MyPlace showroom allows you to try before you buy. Have a hands-on play of MyPlace and MyAir, learn how everything works and experience how useful our technology is designed to be.

DURING INSTALLATION

Our locally based service team will support your builder to ensure a smooth installation of MyPlace. For retrofit customers, our team of installers and electricians can take care of everything for you.

ONGOING SUPPORT

Tech support is only a call away. Phone MyTeam directly, if we can't talk you through a resolution, we'll come out and fix it in person. Based out of our Head Office in Western Australia, you can **call on MyTeam between 7am-7pm AEST, Monday-Friday.**

The advantage of Australian-made

MyPlace is designed by Advantage Air, a family-owned Australian company that started out designing and manufacturing innovative ducted air-conditioning. In the last 20 years we have focussed more specifically on smart electronic control systems, including MyPlace.

In this time we have earned a reputation for producing reliable, exceptional products that make daily life easier and more comfortable. We take pride in designing and creating an Australian product that is world class. To achieve this, we embrace technology and invest heavily in research and development.

Our ingenious engineers have developed numerous industry firsts and earned us a number of patents, registered designs and design awards in the process. We are committed to quality and where possible, make our components in Australia.

Consumer support

At Advantage Air we are committed to the quality and user experience of our products, which is why we have our own consumer support centre, right here in Australia. Whether it is to step you through an app update, assist with getting your MyPlace and your WiFi talking to each other, or just to go over how to get the most out of your system, we are here to help. You can take comfort in the fact that it is staffed internally, not outsourced, assuring the quality of advice and service you will receive.

Peace of mind warranty

Advantage Air components are well known in the industry for their quality and durability. To prove our confidence, we provide a 5 year warranty on all electronic controls.

Wall mounted touchscreen

Advantage Air touchscreens are manufactured with a static Android version, therefore standard Android operating system updates are not available. Only critical Android updates will be allowed.

Compatibility

For details on compatible phones and devices please visit our website; www.advantageair.com.au/support

Note: Although most apps and routers work with our touchscreens there will be some that are not compatible. Please let us know if you have issues so that we can assist where possible.

Activation code

MyPlace has an activation feature. A code may be required from your installer to activate your system after 21 days.
